

Sooty Mold Cleaner

High-Powered d-Limonene Mold Cleaner for Citrus

BENEFITS

- Removes Sooty Mold Deposits from fruit

PRINCIPAL USE

Sooty Mold Cleaner is a highly effective citrus cleaner. Primarily used to remove Sooty Mold, the d-limonene ingredient is also effective in removing heavy, late season fruit waxes that can interfere with pack wax performance.

COMPOSITION

Sooty Mold Cleaner is an alkaline detergent containing the citrus extract, d-limonene, as an active cleaning agent. It is made entirely with ingredients that conform with FDA regulations 21 CFR, Subpart D, Section 173.315, for washing fruits and vegetables.

DIRECTIONS

Dilute Sooty Mold Cleaner at a rate of 1:19 with water. Spray or foam onto fruit over brushes. Increased concentration and increased contact time are effective in improving performance. Rinse thoroughly.

See product label for specific use direction, dilutions, and rates of application.
