

PacRite® 425

Premium Shellac Citrus Coating for Domestic and Export Markets

BENEFITS

- Fast drying
- High-shine
- Durable coating

PRINCIPAL USE

PacRite® 425 is a high-shine citrus pack wax that is durable in export shipment and meets the demands of California export orange and lemon shippers.

COMPOSITION

PacRite® 425 is an alkaline emulsion of food-grade shellac and resins that conform with FDA regulations, 21 CFR, Part 172, for food-use coatings.

DIRECTIONS

Apply PacRite® 425 to clean, damp-dry citrus at the rate of 8-12,000 lbs of fruit per gallon of wax. Apply by spray or drip over brushes. Dry with heated air before handling.

See product label for specific use direction, dilutions, and rates of application.

FOR BEST RESULTS

Using a cleaner such as 180 Cleaner, EpiClean, or PacFoam Plus can dramatically improve coating attributes including: shine, durability, and leveling. Use of these cleaners is highly recommended to effectively prepare fruit surfaces for coating.
