

Jet-Oxide™ 5%

Peroxyacetic Acid Postharvest Sanitizer

BENEFITS

- Jet-Oxide™ disinfects as it cleans in one operation.
- Kills fungal and bacterial pathogens as well as slime-forming algae on contact.
- Earth-friendly, completely non-toxic, non-residual and biodegradable. Organic approved product.
- Cold fogging has proven to be an effective, time and labor saving way to apply Jet-Oxide to packinghouse surfaces and storage rooms.
- Jet-Oxide™ can be used for the treatment of raw, un-processed fruit and vegetables.
- It can be applied as a dip or spray to control the growth of non-public health microorganisms that may cause decay and/or spoilage on raw, post-harvest fruits and vegetables during the washing process.

PRINCIPAL USE

Jet-Oxide™ is used for surface disinfection in packinghouses and decontamination of equipment and storage rooms.

COMPOSITION

Jet-Oxide™ is a balance of peroxyacetic acid (5%), hydrogen peroxide, acetic acid and water.

DIRECTIONS

See product label for specific use direction, dilutions, and rates of application.
