

Acidex

Hard-Water “Bloom” Remover for Apple and Pear Processing

BENEFITS

- Cleans and prepares fruit surfaces for coatings
- Minimizes corrosion of equipment and costly clean
- Highly economical for volume production

PRINCIPAL USE

Acidex eliminates hard-water deposits as well as natural fruit wax from apples.

COMPOSITION

Acidex is made with phosphoric acid and surfactants that conform with FDA regulations, 21 CFR, Subpart D, Section 173.315, for washing fruits and vegetables.

DIRECTIONS

Apply to fruit with an overhead spray bar. If possible, run fruit through brushes for thorough scrubbing. Always rinse fruit with potable water before applying coatings.

See product label for specific use directions, dilutions, and rates of application.

Pace International
Brings Innovative Solutions and Technologies to
Increase Efficiencies in Application Processes
with Unsurpassed Service Quality

The Leading Postharvest Specialist

Innovative Technologies
High Quality Products
Efficient Application Systems
Professional Services & Support
