

PrimaFresh® FD

Ultra Shine, Fast Drying Carnauba Coating for Pome Fruit

BENEFITS

- Ideal coating for short drying tunnels or areas of high humidity
- Lower dryer temperatures are gentler on fruit and save on energy costs
- High gloss finish for maximum eye appeal
- Durable shine in and out of storage
- Highly resistant to whitening
- Perfect coating for export and domestic use

PRINCIPAL USE

PrimaFresh® FD is a high-gloss, fast drying carnauba coating for postharvest use on apples.

COMPOSITION

PrimaFresh® FD is composed of ingredients that conform with FDA regulations, 21 CFR, Part 172, for food coatings.

DIRECTIONS

Use at full strength. For best results apply directly to clean, dry fruit. Rinse coating application systems daily with potable water.

See product label for specific use direction, dilutions, and rates of application.

FOR BEST RESULTS

Using a fruit cleaner such as Acidex, Field Clean, or Mineral-XX can dramatically improve coating attributes including: shine, durability, and leveling. Use of these cleaners is highly recommended to effectively prepare fruit surfaces for coating.

Pace International
Brings Innovative Solutions and Technologies to
Increase Efficiencies in Application Processes
with Unsurpassed Service Quality

The Leading Postharvest Specialist

Innovative Technologies
