

EpiShield™

Natural Cuticle Protection from Lenticel Breakdown Disorder on Apples

BENEFITS

- Seals micro-cracks and pores of growing apple skin
- Acts in a protective role against stressful environmental conditions
- Requires no special equipment

PRINCIPAL USE

EpiShield™ is a preharvest solution to reduce the incidence of Lenticel Breakdown Disorder within the apple skin after storage.

COMPOSITION

EpiShield™ is a preharvest formulation of a proprietary mixture of plant extracts and vegetable esters.

DIRECTIONS

See product label for specific use direction, dilutions, and rates of application.
