

PacRite[®] 536

Wetting Agent

BENEFITS

- Appreciably lowers the interfacial tension between a liquid and a solid
- Increases the tendency of a liquid to make complete contact with the surface of a solid, so that no dry area may remain
- Prevents spotting of fruit or foliage when used with wettable powders
- Water soluble

PRINCIPAL USE

PacRite[®] 536 is added to a liquid, increases spreading and penetrating power by lowering the surface tension.

COMPOSITION

PacRite[®] 536 is a clear, water-white liquid that is odorless and water soluble. All components of this product are included or exempt from inclusion in EPA's Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

DIRECTIONS

Use PacRite[®] 536 with fungicides.

See product label for specific use directions, dilutions, and rates of application.
