

Shield-Brite® DPA 31%

Anti-Scald Solution for Apples during Storage

BENEFITS

- Mixes easily with water for convenient application
- Low-foaming formulation helps assure uniform coverage
- Enhances profitability by reducing storage losses and enabling consistently higher quality of stored fruit

PRINCIPAL USE

Shield DPA 31% controls scald damage to apples while in cold or controlled atmosphere storage. Recent research reports use of DPA drenching helps keep 'Granny Smith' apples greener than an untreated control during long-term storage.

COMPOSITION

Contains 31% super-refined, technical grade active ingredient diphenylamine that is registered as a plant-growth regulator by the U.S. Environmental Protection Agency (EPA).

DIRECTIONS

See product label for specific use direction, dilutions, and rates of application.

Pace International
Brings Innovative Solutions and Technologies to
Increase Efficiencies in Application Processes
with Unsurpassed Service Quality

The Leading Postharvest Specialist

Innovative Technologies
High Quality Products
Efficient Application Systems
Professional Services & Support
Global Experience & Research
