

# 180 Cleaner

## Acidic Detergent for Fruit Processing

### BENEFITS

- Removes mineral deposits from overhead washers / sprayers
- Improves hypochlorite effectiveness
- Improves wetting and spreading of hypochlorite solutions

### PRINCIPAL USE

180 Cleaner is an acidic detergent for cleaning mineral deposits from fruit, or for use as a wetting agent in the chlorinating section of the wash process.

### COMPOSITION

180 Cleaner is made with phosphoric acid and surfactants that conform with FDA regulations, 21 CFR, Subpart D, Section 173.315 for washing fruits and vegetables.

### DIRECTIONS

Apply as a spray or foam to fruit over brushes. With sodium hypochlorite treatments, use sufficient amounts of 180 Cleaner to obtain neutral pH levels in the treatment.

See product label for specific use directions, dilutions, and rates of application.
