

PrimaFresh® 60-OR

Vegetable Oil Based Protective Coating for Organic Stonefruit, Vegetables

BENEFITS

- Reduces fruit shrinkage due to moisture loss during cold storage and distribution
- Provides shine to peaches, plums, nectarines and vegetables through the packing line
- A stable food-grade vegetable oil emulsion, especially formulated for organically grown stonefruit and vegetables

PRINCIPAL USE

Organic coating for stonefruit is vegetable oil based to enhance freshness, retain moisture and maintain natural appearance.

COMPOSITION

PrimaFresh® 60-OR 110-NCL a food-grade vegetable oil ingredient that conforms with FDA regulations, 21 CFR, Part 172, for food coatings.

DIRECTIONS

Apply PrimaFresh® 60-OR directly or diluted on previously washed and dried fruit surface. If diluted before application, use soft water. Dilution ratios may be adjusted to suit specific needs. On nectarines, plums, peaches and other round fruits and vegetables.

See product label for specific use direction, dilutions, and rates of application.
