

PacRite® SP

High Performance Carnauba Coating for Sweet Potatoes

BENEFITS

- Significantly reduces shrinkage due to moisture loss during cold storage and distribution
- Can be mixed with postharvest fungicides
- Provides a natural shine

PRINCIPAL USE

Pac-Rite® SP is a protective carnauba coating formulated especially for sweet potatoes to provide exceptional weight loss control.

COMPOSITION

Pac-Rite® SP is a food- grade emulsion containing carnauba and fatty acid soap. PacRite® SP conforms to FDA regulations, 21 CFR, Part 172, for food coatings.

DIRECTIONS

For best results, apply 1 gallon PacRite® SP per 8,000 to 12,000 lbs of sweet potatoes via overhead drip or spray system onto brushes.

See product label for specific use directions, dilutions, and rates of application.
