

Biox™-15EC

Organic Potato Sprout Inhibitor for Line Spray Application

BENEFITS

- Kills sprout/peeper dead in its tracks starting at the packing line and to the consumer's table.
- Over 90% sprout suppression can be achieved on Russet Burbank, Penta and Norkotah potatoes when optimum Eugenol residues are achieved.
- The overhead brush WEIR system proved to be the most effective application method in line delivering appropriate amounts of Biox™-15EC to successfully suppress sprouting on potatoes.
- Prevents re-growth of sprouts on shelves.

PRINCIPAL USE

Biox™-15EC is an organic certified clove oil (Eugenol) based solution to be line applied and used as a sprout/peeper suppressant for the potato fresh market industry.

COMPOSITION

Biox™-15EC is a formulation with clove oil (Eugenol) as active ingredient.

DIRECTIONS

See product label for specific use directions, dilutions, and rates of application.
