<b>General Advice:</b>	Have the product container, label or Safety Data Sheet with you when calling a poison control center or physician or going for treatment. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Avoid contact with eyes and skin. Wear impervious gloves and chemical splash goggles. Keep out of reach of children. You may also contact PROPHARMA (PROSAR) 1-888-271-4649 for emergency medical treatment information.
<b>If on Skin (or hair):</b>	Take off immediately all contaminated clothing. Wash skin with plenty of soap and water for 15-20 minutes. If redness, burning, persistent irritation, or you feel unwell, call and get medical advice/attention. Wash contaminated clothing before reuse.
<b>If in Eyes:</b>	Hold eye open and rinse cautiously with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes if easy to do, then continue rinsing eye. Immediately call a POISON CENTER/doctor.
<b>If Ingested:</b>	Rinse mouth. DO NOT induce vomiting. Immediately call a POISON CENTER/doctor for medical advice/attention. Do not give anything by mouth to an unconscious person.
<b>If Inhaled:</b>	Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor for medical advice. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth, if possible.
<b>Most important Symptoms / effects, acute and delayed</b>	Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage could result, including blindness could result.
<b>Indication of any immediate medical attention and special treatment needed:</b>	Treat patient symptomatically.

### 5. FIRE FIGHTING MEASURES

<b>Suitable Extinguishing Media:</b>	Not flammable. Use any means suitable for extinguishing surrounding fire. Water spray may be used to keep fire exposed containers cool.
<b>Unsuitable Extinguishing Media:</b>	Not available.
<b>Special Hazards Arising from the Chemical:</b>	May include and are not limited to: Oxides of phosphorus. Reacts violently with alkaline material.
<b>Special protective equipment and precautions for firefighters:</b>	Use NIOSH approved self-contained breathing apparatus and full protective clothing including eye protection and boots.
<b>Firefighting equipment/instructions:</b>	Keep upwind. If possible, remove containers exposed to heat or cool with water. Do not scatter spilled material with high pressure water streams. Contain and isolate runoff and debris for proper disposal (see Section 13 of the SDS).
<b>Specific methods:</b>	Use standard firefighting procedures and consider the hazards of other involved materials.
<b>Hazardous combustion products:</b>	May include and are not limited to: Oxides of phosphorus.

**6. ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment and Emergency procedures:** Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, (see section 8 of the SDS).

**Containment / Clean-Up Methods:** Stop spill at the source. Construct temporary dikes of dirt, sand, or other appropriate material to prevent spreading of the material. Absorb with an inert material such as sand or vermiculite and place in an appropriate container for disposal (see Section 13 of the SDS). Neutralize washings with a base such as soda ash. Flush residual spill area with large amounts of water.

**Environmental Precautions:** Do not allow product to enter sewers, lakes, streams or other bodies of water.
