SAFETY DATA SHEET

1. PRODUCT & COMPANY IDENTIFICATION

Product Name: Natural Shine® 320-OR
Product Code: 10085
Product Use: Coating for organically grown fruit
Product Restrictions: For Agriculture Use Only
Manufacturer: Pace International, LLC
Address: 5661 Branch Road, Wapato, WA 98951
Phone Number: 800-936-6750 (Monday-Friday, 7:00 a.m. – 4:00 p.m.)
Medical Emergency Phone Number: 888-271-4649 (PROPHARMA/PROSAR)
Transportation Emergency Phone Number: 800-424-9300 (CHEMTREC)

2. HAZARDS IDENTIFICATION

GHS Classification in accordance with 29 CFR 1910 (2012 OSHA Hazard Communication Standard)
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

Classification:
Physical, Flammable liquid, Category 3
Health hazards, Not classified
Environmental hazards, Not classified

Precautionary Statements:
Prevention Statements:
P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.
P233 Keep container tightly closed.
P240 Ground/Bond container and receiving equipment.
P241 Use explosion-proof electrical/ventilating/lighting/equipment.
P242 Use only non-sparking tools.
P243 Take precautionary measures against static discharge.
P280 Wear protective clothing, chemical resistant gloves, and safety glasses.

Response Statements:
P303/361/353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P370/378 In case of fire: Use dry chemical, CO2 to extinguish.

Storage Statements:
P403/235 Store in a well-ventilated place. Keep cool.

Disposal Statements:
P501 Dispose of contents/container should be made in accordance with applicable regional, national and local laws and regulations.

Hazard Symbols:

Signal Word: WARNING
Hazard Statements:
H226 Flammable liquid and vapor.

Other Hazards:
Hazard(s) not otherwise classified (HNOC):
None known.

Supplemental information:
None.

3. COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>CAS #</th>
<th>Concentration (w/w %)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ethanol</td>
<td>64-17-5</td>
<td>5 – 10*</td>
</tr>
<tr>
<td>Glycerol</td>
<td>56-81-5</td>
<td>1 – 5*</td>
</tr>
<tr>
<td>Shellac, sodium salt</td>
<td>2227212-85-1</td>
<td>10 – 30*</td>
</tr>
</tbody>
</table>

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

Composition comments
US GHS: The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

4. FIRST AID MEASURES

General Advice: Have the product container, label or Safety Data Sheet with you when calling a poison control center or physician, or going for treatment. You may also contact PROPHARMA (PROSAR) 1-888-271-4649 for emergency medical treatment information.
If Inhaled: If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.
If on Skin (or hair): Take off immediately all contaminated clothing. Wash skin with plenty of soap and water/shower.
If in Eyes: Hold eye open and rinse cautiously with water for 15 – 20 minutes. Remove contact lenses, after the first 5 minutes if present and easy to do, then continue rinsing eye. If eye irritation persists: Get medical advice/attention.
If Ingested: Rinse mouth. Do NOT induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Never give anything by mouth if victim is unconscious, or is convulsing. Obtain medical attention.

5. FIRE FIGHTING MEASURES

Unsuitable extinguishing media: Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical: Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions: In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.
Specific methods: Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards: Flammable liquid and vapor.
Hazardous combustion products: May include and are not limited to: Oxides of carbon.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Containment / Clean-Up Methods: Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. This product is miscible in water.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading.
Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions:
DO NOT discharge effluent containing this product into sewer systems, lakes, streams, ponds, estuaries, oceans or other waters.

7. HANDLING & STORAGE

Precautions for safe handling:
Do not handle or store near an open flame, heat or other sources of ignition. Protect material from direct sunlight. When using, do not eat, drink or smoke. Explosion-proof general and local exhaust ventilation. All equipment used when handling the product must be grounded. Take precautionary measures against static discharge. Use non-sparking tools and explosion-proof equipment. Avoid prolonged exposure. Wear appropriate personal protective equipment (see Section 8 of the SDS). Wash thoroughly after handling. Avoid contact with skin, eyes, or clothing. Use good industrial hygiene practices in handling this material.

Conditions for safe storage, including any incompatibilities:
Keep away from heat/sparks/open flames/hot surfaces. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry area at room temperature, well ventilated area, and away from direct sunlight. Keep in original container. Keep container tightly closed. Store away from incompatible materials (see Section 10 of the SDS). This product contains no preservatives, so use entire contents within 30 days of opening container. Keep out of reach of children.

8. EXPOSURE CONTROLS/PERSO NAL PROTECTION

</tbody>
</table>

Biological limit values
No biological exposure limits noted for the ingredient(s).

Exposure guidelines
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Appropriate engineering controls
See above

Individual protection measures, such as personal protective equipment

Eyeface protection
Wear chemical goggles, safety glasses or face shield. Eye fountain and washing facilities should be available.

Skin protection

Hand protection
Nitrile, neoprene, and vinyl (PVC) gloves or other impervious gloves. Use of protective clothing (long sleeve shirt and pants).

Other
Respiratory protection
Where exposure guideline levels may be exceeded, use an approved NIOSH respirator. Respirator should be selected by and used under the direction of a trained health and safety professional following requirements found in
Thermal hazards
- OSHA's respirator standard (29 CFR 1910.134)
- Not applicable.

General hygiene considerations
- Use good industrial hygiene practices in handling this material. When using
do not eat, drink, or smoke. Routinely wash work clothing and protective
equipment to remove contaminants.

### 10. STABILITY & REACTIVITY

**Reactivity hazards:**
- This product may react with strong oxidizing agents.

**Possibility of hazardous reactions:**
- No dangerous reaction known under conditions of normal use.

**Chemical stability:**
- Stable under recommended storage conditions.

**Conditions to avoid:**
- Avoid heat, sparks, open flames and other ignition sources. Avoid
  temperatures exceeding the flash point. Do not mix with other chemicals.

**Incompatible materials:**
- Strong oxidizing agents.

**Hazardous decomposition products:**
- May include and are not limited to: Oxides of carbon.

### 11. TOXICOLOGICAL INFORMATION

**Routes of exposure:**
- Inhalation. Eye. Skin contact. Inhalation. Ingestion.

**Information on likely routes of exposure:**
- **Inhalation:** May cause stomach distress, nausea or vomiting.
- **Skin contact:** No adverse effects due to skin contact are expected.
- **Eye contact:** Direct contact with eyes may cause temporary irritation.

**Symptoms related to the physical, chemical and toxicological characteristics:**
- Direct contact with eyes may cause temporary irritation.

**Information on toxicological effects:**
- **Acute toxicity:**
  - **Components:** Ethanol (CAS 64-17-5)
  - **Acute Dermal LD50:** Rabbit > 15,800 mg/kg
  - **Inhalation LC50:**
    - **Cat:** 85.4 mg/L, 4.5 Hours, ECHA
    - **Mouse:** 43.7 mg/L, 6 Hours, ECHA
    - **Mouse:** > 60000 ppm, 60 Minutes, ECHA
    - **Mouse:** 79.4 mg/L, 134 Minutes, ECHA
    - **Rat:** > 115.9 mg/L, 4 Hours, ECHA
    - **Mouse:** 31623 ppm, 4 Hours, HMIRA
    - **Mouse:** 20000 ppm, 10 Hours, HSDB
    - **Mouse:** 51.3 mg/L, 6 Hours, ECHA

**Species** | **Test Results**
---|---
Rabbit | > 15,800 mg/kg
Cat | 85.4 mg/L, 4.5 Hours, ECHA

**Natural Shine® 320-OR**

**Persistence/ degradability:**
No data is available on the degradability of this product.

**Bioaccumulative potential**
No data available.

**Mobility in soil:**
Not available.

**Mobility in general:**
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

**13. DISPOSAL CONSIDERATIONS**

**Disposal methods:**
- Collect and reclaim or dispose in sealed containers at licensed waste disposal site.
- Dispose of contents/container in accordance with local/regional/national/international regulations.
- Dispose of in accordance with local regulations.

**Local disposal regulations:**
- The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

**Hazardous waste code**
- Waste of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

**Contaminated Packaging:**
- Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

**14. TRANSPORT INFORMATION**

**Transport of Dangerous Goods (TDG) Proof of Classification**

Classification Method: Classified as per Part 2, Sections 2.1 – 2.8 of the Transportation of Dangerous Goods Regulations. If applicable, the technical name and the classification of the product will appear below.

**U.S. Department of Transportation (DOT)**

The information provided in this Safety Data Sheet (SDS) is provided in good faith and believed to be accurate at the time of preparation of the SDS. However, Pace International, LLC and its subsidiaries or affiliates extend no warranties, make no representations, and assume no responsibility as to the accuracy, suitability, or completeness of such information. Additionally, neither Pace International, LLC nor any of its subsidiaries or affiliates represents or guarantees that this information or product may be used without infringing the intellectual property rights of others. It is the users’ own responsibility to determine the suitability of this information for their own particular use of this product. If necessary, contact Pace International, LLC to confirm that you have the most current product label and SDS.
This Safety Data Sheet (SDS) may provide more information than the product label but does not replace or modify the product labeling (attached to and accompanying the product container). The product SDS and the product label both provide consistent and important health, safety, and environmental information as required by the Occupational Health and Safety Act (29 CFR 1910.1200, “Hazcom”). This requirement covers employers, employees, emergency responders, users and others handling the product. All necessary hazard classification and appropriate precautionary, use, storage, and disposal information is set forth on the labeling and the SDS.
