Natural Shine[®] 595 EU

POSTHARVEST

SAFETY DATA SHEET

1. PRODUCT & COMPANY IDENTIFICATION

Natural Shine® 595 EU **Product Name:**

Product Code: 10360

Product Use: Carnauba citrus coating for global markets

Restrictions: For Agriculture Use Only Manufacturer: Pace International, LLC

Address: 5661 Branch Road, Wapato, WA 98951

Phone Number: 800-936-6750 (Monday-Friday, 7:00 a.m. - 4:00 p.m.) Medical Emergency Phone Number: 888-271-4649 (PROPHARMA/PROSAR) Transportation Emergency Phone Number: 800-424-9300 (CHEMTREC)

HAZARDS IDENTIFICATION

GHS Classification in accordance with 29 CFR 1910 (2012 OSHA Hazard Communication Standard)

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

Precautionary Statements: Classification: **Prevention Statements:** Physical Hazards, Not Classified

Sensitization, Skin Category 1

Environmental Hazards, Not Classified

Hazard Symbols: workplace. P280 Wear protective clothing, chemical resistant gloves, and

safety glasses.

Response Statements:

P302/352 IF ON SKIN: Wash with plenty of soap and water. Signal Word: P333/313 If skin irritation or rash occurs: Get Medical

WARNING

P321 Specific treatments see Section 4 First Aid Measures on SDS. **Hazard Statements:** P362/364 Take off contaminated clothing and wash it before reuse. H317 May cause an allergic skin reaction.

Storage Statements:

Store away from incompatible materials.

P261 Avoid breathing mist, vapors or spray.

Disposal Statements:

P501 Dispose of contents/container should be made in accordance with applicable regional, national and local laws and regulations.

P272 Contaminated work clothing should not be allowed out of the

Other Hazards: None known.

Hazard(s) not otherwise classified

None known. Supplemental information: None

3. COMPOSITION/INFORMATION ON INGREDIENTS

Mixture

Chemical Name CAS# Concentration (w/w %) Stabilizer

Trade Secret 0.1 - 1*

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume. **Composition Comments:**

*US GHS: The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

4. FIRST AID MEASURES

General Have the product container, label or Safety Data Sheet with you when calling a poison control

Advice: center or physician or going for treatment.

If on Skin: IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get Medical

advice/attention. Take off contaminated clothing. Wash contaminated clothing before reuse.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact

lenses, if present, after the first 5 minutes, then continue rinsing eye. If eye irritation persists:

Get medical advice/attention.

If Swallowed: DO NOT induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of

aspiration. Never give anything by mouth if victim is unconscious or is convulsing. Obtain

medical attention.

If Inhaled:

If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.

Most important Symptoms / effects, acute

May cause an allergic skin reaction. Dermatitis. Rash.

and

Delayed: Indication of

Provide general supportive measures and treat symptomatically. Symptoms may be delayed.

any immediate

medical attention and special treatment

needed:

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Treat for surrounding material.

Unsuitable Extinguishing

Do not use water jet as an extinguisher, as this will spread the fire.

Media:

Special Hazards Arising from

the Chemical:

During fire, gases hazardous to health may be formed.

Special protective equipment

and precautions for

Self-contained breathing apparatus and full protective clothing must be worn

in case of fire.

firefighters: Fire-fighting

Fire-fighting Move containers from fire area if you can do so without risk.

equipment/instructions:

Specific methods:

Use standard firefighting procedures and consider the hazards of other

involved materials.

General fire hazards: No unusual fire or explosion hazards noted.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency procedures: Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be

contained. For personal protection, (see section 8 of the SDS).

Containment / Clean-Up

Methods:

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see

section 13 of the SDS.

Environmental Precautions: DO NOT discharge effluent containing this product into sewer systems, lakes,

streams, ponds, estuaries, oceans or other waters.

7. HANDLING & STORAGE

Precautions for Safe Handling:

Do not breathe mists, vapors, or spray. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Wear appropriate personal protective equipment (see Section 8 of the SDS). Wash thoroughly after handling. Use good industrial hygiene practices in handling this material. Eating, drinking and smoking in work areas is prohibited.

Conditions for Safe Storage, including any Incompatibilities: Store in a dry and cool area. Do not allow product to freeze. Store indoors at temperatures between 40°-90°F. Keep container closed and upright to prevent leakage and contamination. Once opened, use entire contents within 45 days. Keep out of reach of children

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits:

No exposure limits are indicated for the ingredient (s).

Biological limit values: No biological exposure limits noted for the ingredient(s).

Appropriate engineering Good general ventilation (typically 10 air changes per hour) should be used.

Controls:

Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls

to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an

acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles). Eye fountain and

washing facilities should be available.

Skin protection

Hand protection Wear impervious gloves. Confirm with reputable supplier first.

Other Wear appropriate chemical resistant clothing. Use of an impervious apron is

recommended. As required by employer code.

Respiratory protection Not normally required if good ventilation is maintained. Where exposure

guideline levels may be exceeded, use an approved NIOSH respirator. Respirator should be selected by and used under the direction of a trained health and safety professional following requirements found in OSHA's

respirator standard (29 CFR 1910.134).

Thermal hazards Not applicable.

do not eat, drink, or smoke. Wash thoroughly after handling. Contaminated

work clothing should not be allowed out of the workplace.

9. PHYSICAL & CHEMICAL PROPERTIES

Physical state: Liquid Upper/Lower flammability Not available

limits:

Appearance:Dark brown,Vapor pressure:Not available

homogeneous

Odor: Fatty, sweet Vapor density: (air =1) Not available

Odor threshold: Not available Specific Gravity: (H₂O = 1) .99

Solubility: Miscible with water

Melting/Freezing point: Not available Partition coefficient Not available

(n-octanol-water):

Pour PointNot availableAuto-ignition temperature:Not availableInitial boiling point and212°F (100°C)Decomposition temperature:Not available

boiling range:

Flash point:Not availableViscosity:Not availableEvaporation rate:Not availableExplosive properties:Not explosiveFlammability (solid, gas):Not applicableOxidizing properties:Not oxidizing

10. STABILITY & REACTIVITY

Reactivity hazards: This product may react with strong oxidizing agents.

Possibility of Hazardous No dangerous reaction known under conditions of normal use.

Reactions:

Chemical stability: Material is stable under normal conditions.

Conditions to avoid: Do not mix with other chemicals.

Incompatible materials: Strong oxidizing agents.

Hazardous decomposition May include and are not limited to: Oxides of carbon.

products:

11. TOXICOLOGICAL INFORMATION

Routes of exposure Eye, Skin contact, Inhalation, Ingestion.

Information on likely routes of exposure

IngestionMay cause stomach distress, nausea or vomiting.InhalationNo adverse effects due to inhalation are expected.

Skin corrosion / May cause an allergic skin reaction.

irritation:

Eye damage / Direct contact with eyes may cause temporary irritation.

irritation:

Symptoms related to the May cause an allergic skin reaction. Dermatitis. Rash.

Not listed.

Reproductive toxicity: This product is not expected to cause reproductive or developmental

effects.

Teratogenicity: Not available. Specific target organ toxicity - Not classified.

single exposure:

Specific target organ toxicity -

repeated exposure:

Not classified.

Aspiration hazard: Material does not present an aspiration hazard.

Chronic effects: None known.

12. ECOLOGICAL INFORMATION

Ecotoxicity Not available.

Persistence/ degradability: No data is available on the degradability of this product.

Bioaccumulative potential Not available No data available.

Mobility in general: Not available.

Other adverse effects: No other adverse environmental effects (e.g. ozone depletion, photochemical

ozone creation potential, endocrine disruption, global warming potential) are

expected from this component.

13. DISPOSAL CONSIDERATIONS

Disposal instructions: Collect and reclaim or dispose in sealed containers at licensed waste disposal

site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal Regulations: Dispose in accordance with all applicable regulations.

Hazardous waste code: The waste code should be assigned in discussion between the user, the

producer and the waste disposal company.

Waste from residues / Dispose of in accordance with local regulations. Empty containers or liners may retain some products: This material and its container must be disposed

of in a safe manner (see: Disposal instructions).

Contaminated Packaging: Since emptied containers may retain product residue, follow label warnings even

after container is emptied. Empty containers should be taken to an approved

waste handling site for recycling or disposal.

14. TRANSPORT INFORMATION

Transport of
Dangerous Goods
(TDG) Proof of

Classification Method: Classified as per Part 2, Sections 2.1-2.8 of the Transportation

of Dangerous Goods Regulations. If applicable, the technical name and the

(TDG) Proof of classification of the product will appear below.

U.S. Department of Transportation (DOT)

Not regulated as dangerous goods.

NFPA Ratings:

The information provided in this Safety Data Sheet (SDS) is provided in good faith and believed to be accurate at the time of preparation of the SDS. However, Pace International, LLC and its subsidiaries or affiliates extend no warranties, make no representations, and assume no responsibility as to the accuracy, suitability, or completeness of such information. Additionally, neither Pace International, LLC nor any of its subsidiaries or affiliates represents or guarantees that this information or product may be used without infringing the intellectual property rights of others. It is the users' own responsibility to determine the suitability of this information for their own particular use of this product. If necessary, contact Pace International, LLC to confirm that you have the most current product label and SDS.

This Safety Data Sheet (SDS) may provide more information than the product label but does not replace or modify the product labeling (attached to and accompanying the product container). The product SDS and the product label both provide consistent and important health, safety, and environmental information as required by the Occupational Health and Safety Act (29 CFR 1910.1200, "Hazcom"). This requirement covers employers, employees, emergency responders, users and others handling the product. All necessary hazard classification and appropriate precautionary, use, storage, and disposal information is set forth on the labeling and the SDS.
