1. PRODUCT & COMPANY IDENTIFICATION

Product Name: Semperfresh™
Product Code: 10187
Product Use: A liquid post-harvest treatment to protect and extend the storage and shelf life of fruit.
Supplier: Pace International, LLC
Address: 5661 Branch Road, Wapato, WA 98951
Phone Number: 800-936-6750 (Monday-Friday, 7:00 a.m. – 4:00 p.m.)
Medical Emergency Phone Number: 888-271-4649 (PROSAR)
Transportation Emergency Phone Number: 800-424-9300 (CHEMTREC)

2. HAZARDS IDENTIFICATION

Classification:
Physical, Flammable Liquid and Vapour, Category 3
Eye irritation, Category 2A
Specific Target Organ Toxicity, Single Exposure, Category 3

Hazard Symbols:

Precautionary Statements:
Prevention Statements:
P210 Keep away from heat/sparks/open flames/ hot surfaces. No smoking.
P233 Keep container tightly closed.
P240 Ground/Bond container and receiving equipment.
P242 Use only non-sparking tools.
P243 Take precautionary measures against static discharge.
P280 Wear protective clothing, chemical resistant gloves, and safety glasses.
P264 Wash hands thoroughly after handling.
P261 Avoid breathing mist/vapours/ or spray.
P271 Use only outdoors or in a well-ventilated area.

Response Statements:
P303/36/353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P370/378 In case of fire: Use CO2, dry chemical, or foam to extinguish.
P337/313 If eye irritation persists: Get medical advice/attention.
P312 Call a POISON CENTER/doctor if you feel unwell.

Storage Statements:
P403/233 Store in well-ventilated place. Keep container tightly closed.
P235 Keep cool.
P405 Store locked up.

Disposal Statements:
P501 Dispose of contents/container should be made in accordance with applicable regional, national and local laws and regulations.

3. COMPOSITION/INFORMATION ON INGREDIENTS

4. **FIRST AID MEASURES**

**General Advice:** Have the product container, label or Safety Data Sheet with you when calling a poison control center or physician, or going for treatment.

**If on Skin:** Take off contaminated clothing. Wash skin with plenty of soap and water. If redness, burning, or irritation persists, get medical advice/attention. Wash contaminated clothing before reuse.

**If in Eyes:** Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Get medical advice/attention.

**If Swallowed:** Call a poison control center or doctor for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth, if possible.

5. **FIRE FIGHTING MEASURES**

**Extinguishing Media:** Flammable. Use alcohol resistant foam, water spray, carbon dioxide, or dry chemical powder. Water spray may be used to keep fire exposed containers cool. Do not use high volume water jet.

**Special Exposure Hazards:** In combustion emits toxic fumes. Forms explosive air-vapor mixture. Vapors may flow along surfaces to distant ignition sources and flash back. Closed containers exposed to heat may explode. Contact with strong oxidizers may cause fire. Burns with a clear, almost invisible flame.

**Special Protective Equipment / Procedures for Firefighters:** Wear NIOSH/MSHA approved positive-pressure, self-contained breathing apparatus and full protective turn-out gear. Use water spray to cool fire-exposed containers. Use caution in approaching fire.

6. **ACCIDENTAL RELEASE MEASURES**

**Personal Precautions:** Wear protective clothing, chemical resistant gloves, and tightly fitting safety goggles or face shield. Ensure adequate ventilation, especially in confined areas.

**Environmental Precautions:** In case of spill isolate area and deny entry to unnecessary personnel. Do not allow product to enter sewers, lakes, streams or other bodies of water.

**Containment / Clean-Up Methods:** Stop spill at the source. Construct temporary dikes of dirt, sand, or other appropriate material to prevent spreading of the material. Absorb with an inert material such as sand or vermiculite and place in an appropriate container for disposal.

7. **HANDLING & STORAGE**

**Handling:** Avoid direct contact with the substance. Ensure there is sufficient ventilation of the area. Do not handle in a confined space. Avoid the formation or spread of mists in the air. Good standards of hygiene should be maintained at all times. Smoking, eating, and drinking are prohibited in the work area. For personal protection wear protective clothing, chemical resistant gloves, and tightly fitting safety goggles or face shield. Use non-sparking tools.

**Storage:** Store in a cool, well ventilated area. Keep container tightly closed when not in use. Keep away from sources of ignition. Prevent the buildup of electrostatic charge in the immediate area. Ensure lighting and electrical equipment is not a source of ignition. Keep out of reach of children and livestock.
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits:

- Isopropyl Alcohol CAS# 67-63-0
  - STEL: 400 ppm (ACGIH TLV, British Columbia, Alberta, Ontario TWAEV)
  - STEL: 500 ppm (Quebec)
  - TWA: 200 ppm (ACGIH TLV, British Columbia, Alberta, Ontario TWAEV)
  - TWA: 400 ppm (OSHA PEL, Quebec)

- Ethanol CAS# 64-17-5
  - STEL: 1000 ppm (ACGIH TLV, British Columbia, Ontario TWAEV)
  - TWA: 1000 ppm (OSHA PEL, Alberta, Quebec)

Engineering Controls:
If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

Personal Protective Equipment:

- Clothing: Wear protective clothing and chemical resistant gloves when handling.
- Eye Protection: Wear tightly fitting safety goggles or face shield. Eye fountain and washing facilities should be present at work area.
- Respiratory Protection: If exposure limits are exceeded or irritation is experienced, a NIOSH/MSHA-approved respirator should be worn. Respiratory protection must be provided in accordance with current local regulations.

10. STABILITY & REACTIVITY
Reactivity hazards: None known
Chemical stability: Generally stable even under fire exposure conditions and not water reactive.
Conditions to avoid: Heat, hot surfaces, sources of ignition, flames.
Incompatible materials: Strong oxidizing agents, strong acids.
Hazardous decomposition products: In combustion, emits toxic fumes.

11. TOXICOLOGICAL INFORMATION
Acute toxicity:
- Acute Oral: LD₅₀ (estimate): > 5610 mg/kg Based on Ingredients
- Acute Dermal: LD₅₀ (estimate): > 121770 mg/kg Based on Ingredients
- Inhalation: LC₅₀ (estimate): > 30.89 mg/L Based on Ingredients

Skin corrosion/irritation: Causes mild skin irritation
Eye damage/irritation: Causes serious eye irritation
Respiratory/Skin sensitization: No evidence of sensitization.
Germ cell mutagenicity: Not available
Carcinogenicity: Isopropyl Alcohol CAS# 67-63-0 is listed as a Group 3 carcinogen with IARC
Reproductive toxicity: Contains a known or suspected reproductive toxin, avoid repeated exposure.
Target organ effects: May cause adverse liver effects. Ingestion could cause problems related to excess alcohol and polysaccharide ingestion. Other adverse effects on target organs include blood, central nervous system, eyes, liver, reproductive system, respiratory system and skin.
Aspiration hazard: Material does not present an aspiration hazard.
Potential health effects: May cause eye irritation. May cause drowsiness or dizziness if ingested.

12. ECOLOGICAL INFORMATION
Toxicity:
- LC₅₀ (96-hr) fish: > 100 mg/L (estimate) Based on Ingredients
Persistence/ degradability: Not available
Bioaccumulative potential: Isopropyl Alcohol CAS# 67-63-0 must be avoided (log Pow 0.05)
Ethanol CAS# 64-17-5 must be avoided (log Pow -0.32)
Mobility in soil: Not available
Other adverse effects: Not available

13. DISPOSAL CONSIDERATIONS
Disposal methods: Recover or recycle if possible. Do not discharge into sewers, lakes, streams, or other bodies of water. Disposal should be made in accordance with applicable regional, national and local laws and regulations. Consult appropriate regulatory officials for information on disposal, keeping in mind that local regulations may be more stringent than regional or national requirements.

15. REGULATORY INFORMATION

SARA 313: Contains a chemical subject to SARA Title III Section 313 in quantities sufficient to trigger reporting requirements.

TSCA: All components of this product are included or exempt from inclusion in EPA’s Toxic Substances Control Act (TSCA) Chemical Substance Inventory.

WHMIS: This product has been classified in accordance with the hazard criteria of the CPR and the SDS contains all of the information required by the CPR.

16. OTHER INFORMATION

HMIS Ratings:
- Health – 0
- Flammability – 3
- Reactivity – 0

NFPA Ratings:

The information provided in this Safety Data Sheet (SDS) is provided in good faith and believed to be accurate at the time of preparation of the SDS. However, Pace International, LLC and its subsidiaries or affiliates extend no warranties, make no representations, and assume no responsibility as to the accuracy, suitability, or completeness of such information. Additionally, neither Pace International, LLC nor any of its subsidiaries or affiliates represents or guarantees that this information or product may be used without infringing the intellectual property rights of others. It is the users’ own responsibility to determine the suitability of this information for their own particular use of this product. If necessary, contact Pace International, LLC to confirm that you have the most current product label and SDS.

This Safety Data Sheet (SDS) may provide more information than the product label but does not replace or modify the product labeling (attached to and accompanying the product container). The product SDS and the product label both provide consistent and important health, safety, and environmental information as required by the Occupational Health and Safety Act (29 CFR 1910.1200, “Hazcom”). This requirement covers employers, employees, emergency responders, users and others handling the product. All necessary hazard classification and appropriate precautionary, use, storage, and disposal information is set forth on the labeling and the SDS.

SDS preparation date: April 8, 2016
Replaces MSDS dated: August 14, 2015
Changes since last revision: Section 14, Transportation
