Product of USA

HAZARD STATEMENTS

This chemical is considered non-hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

PRECAUTIONARY STATEMENTS

Observe good industrial hygiene practices. Wear protective clothing, chemical resistant gloves, and safety glasses. Wash hands after handling.

FIRST AID STATEMENTS

IF SWALLOWED: Rinse mouth. Do not induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Never give anything by mouth if victim is unconscious or is convulsing.

IF ON SKIN: Wash with plenty of water, shower. If skin irritation or rash occurs: Get medical advice/attention.

IF INHALED: If symptoms develop move victim to fresh air. If symptoms persist, obtain medical attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: get medical advice/attention.

DIRECTIONS FOR USE

1. Apply to clean dry fruit over brushes with at least 50% horsehair at a rate of 8,000 to 12,000 pounds (3600 – 5400 kg) of fruit per 1 gallon (3.8 liters). Fruit should be as dry as possible prior to application to enhance shine.
2. Apply with a spray or drip system.
3. Dry with a conventional dryer at 90°-120°F (32°-49°C) for two minutes. This product tends to dry quickly. Do not allow the product to dry in the brush bed during application.
4. If the coating is drying too fast, turn off the heat in the dryers and use only fans.
5. When applying this product, use the least amount of antifoam needed to control foam.
6. Clean application equipment every eight hours with warm, fresh water.
7. Use a wax stripper weekly or as needed.

NOTICE: Food & Drug Administration Act 403(i)(2) requires that fresh produce coated with this product be labeled "Coated with food grade vegetable and/or shellac based resin or wax" on bulk and individual retail/consumer packages.
