RE: Product Guarantee and Glutens, GMOs & Allergens

Title 21 of the Code of Federal Regulations (CFR) Part 110, governs Current Good Manufacturing Practice in Manufacturing, Packing, or Holding Human Food. Part 110.35 (b), Substances used in cleaning and sanitizing; storage of toxic materials, indicates:

(1) Cleaning compounds and sanitizing agents used in cleaning and sanitizing procedures shall be free from undesirable microorganisms and shall be safe and adequate under the conditions of use. Compliance with this requirement may be verified by any effective means including purchase of these substances under a supplier's guarantee or certification, or examination of these substances for contamination.

In response to the above statement, we hereby certify that products manufactured by CH₂O, Inc. are free from undesirable microorganisms and will be safe and adequate under their intended conditions of use.

Use of our products should be conducted in a manner that protects against contamination of food, food contact surfaces, or food-packaging materials.

CH₂O products do not contain gluten (wheat, rye, or barley), genetically modified organisms (GMOs) or the following allergens and their derivatives:

Peanuts	Tree nuts	Wheat
Eggs	Milk	Shellfish
Fish		

The chlorine/oxidizer neutralizing products called DeChlor, Dechlor Liquid, ClO₂ Neutralization Kit/Solution, as well as several oxygen scavenging products intended for use in a boiler contain sulfites.

CH₂O, Inc. is certified in accordance with the ISO 22000 Food Safety Management System standard.
