Phosphate Salts for Flootation of Fruit

For Agricultural Use Only

Ingredients: Phosphoric acid, potassium hydroxide, and proprietary ingredients.

DANGER

KEEP OUT OF REACH OF CHILDREN

HAZARD STATEMENTS

Harmful if swallowed. Causes severe skin burns and serious eye damage. Harmful to aquatic life.

PRECAUTIONARY STATEMENTS

Avoid contact with eyes or prolonged contact with skin and clothing.
Do not breathe mist, spray, or vapours.
Do not eat, drink or smoke when using this product.
Wash hands thoroughly after handling.
Keep only in original container.
Wear impermeable clothing, safety goggles or face shield and chemical resistant gloves.
Avoid release to the environment.

FIRST AID STATEMENTS

IF SWALLOWED: Rinse mouth. Do not induce vomiting. Call a POISON CENTER / doctor for medical advice.

IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with soap and water, shower. Wash contaminated clothing before reuse.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or doctor for medical advice. Specific treatments see Section 4 of SDS.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor for medical advice/attention.

SPILL OR LEAK

This product is harmful to aquatic life. Avoid release into the environment. Soak up liquid with sand, earth or other inert material and place into a suitable waste container.

RECOMMENDATIONS FOR USE

Xeda FC greatly increases the density of the water solution. This affects the solubility of chlorine in water, so very specific mixing practices should be followed to minimize off-gassing of chlorine.

Fresh Tank Mixing

When mixing a fresh tank, the components must be added in the following order: Water, Xeda FC, Sodium hypochlorite.

All circulating pumps should be operating during the addition of all components. The rate of dispersion depends on the mixing rate of the tank and the location of the introduction point. Whenever possible, Xeda FC and sodium hypochlorite should be introduced into areas of good circulation or agitation, such as the suction inlet of the circulating pump. Sodium hypochlorite should be introduced gradually. Never pour sodium hypochlorite at a high rate directly from a bucket or other bulk container.

Use of a chemical metering pump is recommended over manual additions.

Sodium hypochlorite should be introduced below the water surface or injected into the

water circulation system.

Chlorine degrades rapidly in a dump tank solution. If a tank will not be used until the following day, wait until that day to introduce sodium hypochlorite.

Adding additional Xeda FC to tank containing chlorine

The addition of Xeda FC will cause a sudden change in solution density. Therefore, it is important to take the following precautions:

Introduce Xeda FC when chlorine concentrations are at a low level.

Introduce Xeda FC into a deep part of the tank with strong circulation.

Introduce Xeda FC at a very slow rate (less than 4.0 gpm).

Mix Rates

Performance of this product is affected by time, temperature and chemical concentration. The following table provides samples dilution rates, but for best results consult a PACE technical representative for application information. Xeda FC Dilution Rates

Xeda FC (ml)	Water (ml)	Solution density (g/ml)
0.625	99	1.0060
1.25	98	1.0110
1.875	97	1.0160
2.5	96	1.0200
3.75	94	1.0300
5	92	1.0393
6.25	90	1.0488
7.5	88	1.0583
8.75	86	1.0678
10	84	1.0773

STORAGE AND DISPOSAL

STORAGE: Store indoors in a cool, dry locked location. Keep container dry and closed when not in use. Do not use container as a dilution or mixing vessel. Store in corrosive resistant container with a resistant inner liner. Store away from incompatible materials such as alkalis, strong oxidizers, halocarbons, and metal salts. Keep container upright to prevent leakage and avoid release into environment. Absorb any spillage to prevent material damage.

PRODUCT DISPOSAL: Wastes resulting from the use of this product must be disposed on site or in accordance with local/regional/national/ or international regulations.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. Decontaminated and punctured containers may also be disposed of in a sanitary land fill.

For more information about PACE's products, their uses and benefits, consult your PACE representative or our website at www.paceint.com

NOTICE TO BUYER

IMPORTANT: Read the information below before using this product. If the terms are not acceptable, you should return the unopened product container immediately for a complete refund.

LIMITED WARRANTY, TERMS OF SALE, AND LIMITATION OF LIABILITY

Upon purchase or use of this product, purchaser and user agree to the following terms:

Warranty: Pace International, LLC (the Company) warrants that this product conforms to the chemical description on the label in all material respects. To the extent consistent with applicable law, except as expressly stated in the foregoing sentence, the Company makes no further warranties and expressly disclaims any implied warranties of merchantability or fitness for a particular purpose and any representation or warranty.

Terms of Sale: The Company's directions for use of this product must be followed carefully. It is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result

because of such factors as weather conditions, presence of other materials, and the manner of use or application (including failure to adhere to label directions), all of which are beyond the Company's control. To the extent consistent with applicable law, all such risks are assumed by the user.

Limitation of Liability: To the extent consistent with applicable law, the exclusive remedy against the Company for any cause of action relating to the handling or use of this product is a claim for damages, and in no event shall damages or any other recovery of any kind exceed the price of the product which caused the alleged loss, damage, injury or other claim. To the extent consistent with the applicable law, under no circumstances shall the Company be liable for any special, indirect, incidental or consequential damages of any kind, including loss of profits or income. To the extent consistent with applicable law, the Company and the seller offer this product, and the purchaser and user accept this product, subject to the foregoing warranty, terms of sale and limitation of liability, which may be varied or modified only by an agreement in writing signed on behalf of the Company by an authorized representative.
