## High-Gloss Carnauba Coating for Global Markets

### For Agricultural Use Only

This product conforms with FDA regulations, 21 CFR, Part 172, for food coatings.

**PRINCIPAL INGREDIENTS:** Mixture is made of carnauba and proprietary food grade ingredients.

**NOTICE:** Food & Drug Administration Act 403(i)(2) requires that fresh produce coated with this product be labeled "Coated with food grade vegetable and/or shellac based resin or wax" on bulk and individual retail/consumer packages.

### KEEP OUT OF REACH OF CHILDREN

#### HAZARD STATEMENTS

This chemical is considered non-hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200).

#### PRECAUTIONARY STATEMENTS

Direct contact with eyes may cause temporary irritation. Wear safety glasses, protective clothing (long sleeve shirt and pants), and chemical resistant gloves. Use good industrial hygiene practices in handling this material. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using the product.

#### FIRST AID STATEMENTS

**IF ON SKIN:** Wash skin with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15 – 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Get medical advice/attention if irritation persists.

**IF SWALLOWED:** Rinse mouth. Do not induce vomiting. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Never give anything by mouth if victim is unconscious or is convulsing. Seek medical treatment.

**IF INHALED:** Move person to fresh air. If symptoms persist, obtain medical attention.

#### DIRECTIONS FOR USE

1. Apply full strength to clean fruit over brushes at a rate of 8,000 to 12,000 pounds (3600 – 5400 kg) of fruit per 1 gallon (3.8 liters).
2. Apply with a spray or drip system.
3. When applying this product, use the least amount of antifoam needed to control foam.
4. Clean application equipment every eight hours with warm, fresh water.
5. Use a wax stripper weekly or as needed.
6. For more recommendations or instructions specific to your situation, consult your Pace Technical Representative.

#### STORAGE AND DISPOSAL

**STORAGE:** Store container in a dry and cool area. Do not allow this product to freeze. Store indoors at temperatures between 40° - 90°F. Keep container closed and upright to prevent leakage and contamination. Once opened, use entire contents within 45 days. Store away from incompatible materials.

**PRODUCT DISPOSAL:** Wastes resulting from the use of this product must be disposed on site or in accordance with local/regional/national/ or international regulations.

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. Decontaminated and punctured containers may also be disposed of in a sanitary land fill.
