eFOG®-FDL K

POSTHARVEST

SAFETY DATA SHEET

1. PRODUCT & COMPANY IDENTIFICATION

eFOG®-FDL K **Product Name:**

EPA Reg# 64864-67

Product Code: 10534

Product Use: Fungicide for Postharvest Kiwi Fruit Treatment by Thermal Fogging

Product

Restrictions: For Agriculture Use Only Manufacturer: Pace International, LLC

Address: 5661 Branch Road, Wapato, WA 98951

Phone Number: 800-936-6750 (Monday-Friday, 7:00 a.m. - 4:00 p.m.)

Medical Emergency Phone Number: 888-271-4649 (PROSAR)

Transportation Emergency Phone Number: 800-424-9300 (CHEMTREC)

2. HAZARDS IDENTIFICATION

GHS Classification in accordance with 29 CFR 1910 (2012 OSHA Hazard Communication Standard)

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). **Precautionary Statements:**

Classification:

Physical, Flammable liquid, Category 3

Acute Oral, Category 4 Acute Dermal, Category 4

Eye Damage / Irritation, Category 2A

Hazard Symbols:

Signal Word: WARNING

Hazard Statements:

Other Hazards:

(HNOC):

Hazard(s) not otherwise classified

Supplemental information

H226 Flammable liquid and vapor. H302 Harmful if swallowed. H312 Harmful in contact with skin. H319 Causes serious eye irritation.

Prevention Statements:

P210 Keep away from heat / hot surfaces / sparks / open flames / and other ignition sources. No smoking.

P233 Keep container tightly closed.

P240 Ground/Bond container and receiving equipment.

P241 Use explosion-proof electrical/ventilating/lighting/equipment.

P242 Use non-sparking tools.

P243 Take precautionary measures against static discharge.

P264 Wash hands thoroughly after handling.

P270 Do not eat, drink or smoke when using this product. P280 Wear protective clothing, chemical resistant gloves, and safety glasses. Fogging applicators must have access to a NIOSHapproved full-face respirator with organic vapor filter if needed.

Response Statements:

P303/361/353 IF ON SKIN (or hair): Take off immediately all

contaminated clothing. Rinse skin with water/shower.

P370/378 In case of fire: Use dry chemical, CO2 to extinguish, do

P301/312 IF SWALLOWED: Call a POISON CENTER/doctor if you

feel unwell.

P330 Rinse mouth.

P302/352 IF ON SKIN: Wash with plenty of soap and water. P312 Call a POISON CENTER/doctor if you feel unwell. P321 Specific treatment see Section 4 First Aid Measures.

P362/364 Take off contaminated clothing and wash it before reuse. P305/351/338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Continue rinsing.

P337/313 If eye irritation persists: Get medical advice/attention.

Storage Statements:

P403/235 Store in a well-ventilated place. Keep cool.

Disposal Statements:

P501 Dispose of contents/container should be made in accordance with applicable regional, national and local laws and regulations.

None known.

None known.

US: Exempt - EPA Reg. # 64864-67 EPA Est. # 64864-WA-1

This is a registered EPA product. The product labeling is in compliance with EPA regulations and guidelines.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Mixture Chemical name CAS# Concentration (w/w %) 131341-86-1 Fludioxonil 8 1-Butanol, 2-methyl-, acetate 624-41-9 1 - 5*5 – 10* 628-63-7 Amyl Acetate Ethyl Acetate 141-78-6

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume. Composition *US GHS: The exact percentage (concentration) of composition has been withheld as a trade

secret in accordance with paragraph (i) of §1910.1200. comments:

FIRST AID MEASURES

General Have the product container, label or Safety Data Sheet with you when calling a poison control Advice:

center or physician, or going for treatment. You may also contact PROPHARMA (PROSAR) 1-

888-271-4649 for emergency medical treatment information. If on Skin:

Take off contaminated clothing. Wash skin with plenty of soap and water. Call a poison control

center or doctor for treatment advice.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact

lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control

center or doctor for treatment advice.

Call a poison control center or doctor for treatment advice. Do not induce vomiting unless told to If Swallowed:

do so by a poison control center or doctor. Do not give anything by mouth to an unconscious

person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give

artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or

doctor for treatment advice

Most Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred

important

Symptoms / effects, acute

and Delayed:

Indication of any immediate

medical attention and special treatment

Have the product container, label or Safety Data Sheet with you when calling a poison control center or physician, or going for treatment.

FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Unsuitable Extinguishing

Media:

needed:

Special Hazards Arising from

the Chemical:

Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide.

Do not use water jet as an extinguisher, as this will spread the fire.

Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous

Self-contained breathing apparatus and full protective clothing must be worn

In case of fire and/or explosion do not breathe fumes. Move containers from

to health may be formed.

Special protective equipment and precautions for

firefighters: Fire-fighting

products:

equipment/instructions:

Specific methods:

General fire hazards: **Hazardous combustion** involved materials. Flammable liquid and vapor.

fire area if you can do so without risk.

May include and are not limited to: Oxides of carbon. Hydrogen fluoride.

Use standard firefighting procedures and consider the hazards of other

Oxides of nitrogen.

in case of fire

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Value

Methods and materials for containment and cleaning up:

Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. Prevent entry into waterways, sewer, basements or confined areas.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see

section 13 of the SDS.

Environmental precautions:

Avoid discharge into drains, water courses or onto the ground. Do not discharge into lakes, streams, ponds or public waters.

7. HANDLING & STORAGE

Precautions for safe handling:

Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Explosion-proof general and local exhaust ventilation. All equipment used when handling the product must be grounded. Take precautionary measures against static discharges. Use non-sparking tools and explosion-proof equipment. Avoid contact with skin, eyes, or clothing. Do not eat, drink or smoke when using this product. Avoid prolonged exposure. Wear appropriate personal protective equipment. Wash thoroughly after handling. Wash contaminated clothing before reuse. Use good industrial hygiene practices in handling this material.

Conditions for safe storage, including any incompatibilities:

Keep out of reach of children.
PESTICIDE STORAGE: Avoid storing below 40°F or above 79°F. Do not use or store near heat or open flames. In case of spill or leak, absorb liquid with sawdust or other absorbent material and incinerate or dispose of it in approved disposal area.

Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry, well-ventilated area away from direct sunlight. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits:

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Components	Type	value
Amyl acetate (CAS 628-63-7)	PEL	525 mg/m3
,		100 ppm
Ethyl acetate (CAS 141-78-6)	PEL	1400 mg/m3
		400 ppm
US. ACGIH Threshold Limit Values		• •
Components	Type	Value
1-Butanol, 2-methyl-, acetate	STEL	100 ppm
(CAS 624-41-9)	TWA	50 ppm
Amyl acetate (CAS 628-63-7)	STEL	100 ppm
	TWA	50 ppm
Ethyl acetate (CAS 141-78-6)	TWA	400 ppm
US. NIOSH: Pocket Guide to Chemical	Hazards	
Components	Type	Value
Amyl acetate (CAS 628-63-7)	TWA	525 mg/m3
•		100 ppm
Ethyl acetate (CAS 141-78-6)	TWA	1400 mg/m3
		400 ppm

Biological limit values Exposure quidelines No biological exposure limits noted for the ingredient(s).

US ACGIH Threshold Limit Values: Skin designation
Benzene (CAS 71-43-2) Can be absorbed through

Appropriate engineering

Can be absorbed through the skin.

Controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection
Skin protection

Wear chemical goggles, safety glasses or face shield.

Hand protection Chemical-resistant gloves made of any waterproof material such as polyvinyl chloride, nitrile rubber, or butyl rubber

Other Handlers (including mixers, loaders, persons cleaning or setting up the

fogging equipment, and persons handling treated fruit still wet with product) and fogging applicators must wear: long-sleeved shirt and long pants, chemical-resistant gloves made of any waterproof material such as polyvinyl chloride, nitrile rubber, or butyl rubber, shoes and socks, protective eyewear (such as goggles, safety glasses, or a face shield), except for fogging

applicators

Respiratory protection Not normally required unless fogging. Fogging applicators must have access

to a NIOSH-approved full-face respirator with organic vapor filter.

Thermal hazards
General hygiene
considerations

Not applicable. Follow manufacturer's instructions for cleaning/handling PPE. If there are no such instructions for washables, use detergent and hot water. Keep and wash

PPE separately from other laundry. Discard clothing or other absorbent materials that have been fogged or heavily contaminated with the product's concentrate. Do not reuse them. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as

possible, wash thoroughly and change into clean clothing.

When using, do not eat, drink or smoke.

9. PHYSICAL & CHEMICAL PROPERTIES

Physical state: Liquid Upper/Lower flammability Not available

limits:

Appearance / Color: Light brown Not available Vapor pressure: Vapor density: (air =1) Odor: Ester-like Not available Odor threshold: Not available Specific Gravity: (H₂O = 1) 1.015 4.0 - 6.0Solubility: Dispersible :Ha Partition coefficient Melting/Freezing point: Not available Not available

Persistence/ degradability: No data is available on the degradability of this product.

Bioaccumulative potential

Mobility in soil: No data available. Mobility in general: Not available.

Other adverse effects: No other adverse environmental effects (e.g. ozone depletion, photochemical

ozone creation potential, endocrine disruption, global warming potential) are

expected from this component.

13. DISPOSAL CONSIDERATIONS

Disposal instructions: Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Dispose of contents/container in accordance with local/regional/national/international

regulations.

Local disposal Dispose in accordance with all applicable regulations.

Regulations:

Hazardous waste code: The waste code should be assigned in discussion between the user, the producer and

Waste from residues /

unused products:

the waste disposal company.

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe

manner (see: Disposal instructions).

Contaminated Since emptied containers may retain product residue, follow label warnings even after

packaging: container is emptied. Empty containers should be taken to an approved waste

handling site for recycling or disposal.

14. TRANSPORT INFORMATION

Transport of DangerousClassification method: Classified according to Part 2, sections 2.1-2.8 of the Regulations for the transport of dangerous goods. If applicable, the technical name

Classification and product classification will appear below.

U.S. Department of Transportation (DOT) UN number: UN1993

Proper shipping name: Flammable liquid, n.o.s.
Technical name: Acetic acid ethyl ester
Technical name: Acetic acid pentyl ester

Special Provisions: B1, B52, IB3, T4, TP1, TP29

Packaging exceptions:150Packaging Non Bulk:203Packaging Bulk:242

15. REGULATORY INFORMATION

US FEDERAL REGULATIONS

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

EPA Reg. # 64864-67 EPA Est. # 64864-WA-1

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes substantial but temporary eye injury. Harmful if absorbed through the skin. Do not get in eyes or on clothing. Wear protective eyewear (glasses, goggles or face shield) Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARD:

Flammable. Keep away from heat or open flame.

ENVIRONMENTAL HAZARDS: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE. It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or local Tribe, consult the State or Tribal Agency responsible for pesticide regulation.

Resistance Management Recommendations:

For resistance management, eFOG®-80 FDL contains a Group 12 fungicide. Any fungal population may contain individuals naturally resistant to eFOG-80 FDL and other Group 12 fungicides. A gradual or total loss of pest control may occur over time if these fungicides

are used repeatedly in the same fields. Appropriate resistance-management strategies should be followed. To delay fungicide resistance, take one or more of the following steps:

• Rotate the use of eFOG-80 FDL or other Group 12 fungicides with different groups that control the same pathogen. • Use tank mixtures with fungicides from a different group that are equally effective on the target pest when such uses are permitted. Use at least the minimum application rate as labeled by the manufacturer. • Monitor treated fungal populations for resistance development. • Contact your local extension specialists or certified crop advisor for any additional pesticide resistance-management and/or IPM recommendations for specific crops and pathogens. • For further information or to report suspected resistance contact Pace International LLC at 1-800-936-6750. You can also contact your pesticide distributor or university extension specialist to report resistance.

16. OTHER INFORMATION

The information provided in this Safety Data Sheet (SDS) is provided in good faith and believed to be accurate at the time of preparation of the SDS. However, to the extent consistent with applicable law, Pace International, LLC and its subsidiaries or affiliates extend no warranties, make no representations, and assume no responsibility as to the accuracy, suitability, or completeness of such information. Additionally, to the extent consistent with applicable law, neither Pace International, LLC nor any of its subsidiaries or affiliates represents or guarantees that this information or product may be used without infringing the intellectual property rights of others. Except to the extent a particular use and particular information are expressly stated on the product label, it is the users' own responsibility to determine the suitability of this information for their own particular use of this product. If necessary, contact Pace International, LLC) to confirm that you have the most current product label and SDS.

This Safety Data Sheet (SDS) serves different purposes than and DOES NOT REPLACE OR MODIFY THE EPA-APPROVED PRODUCT LABEL (attached to and accompanying the product container). This SDS provides important health, safety, and environmental information for employers, employees, emergency responders and others handling large quantities of the product in activities generally other than product use as required by the Occupational Health and Safety Act (29 CFR 1910.1200, "Hazcom"). The product label provides information specifically for product use in the ordinary course. Use, storage and disposal of pesticide products is regulated by the EPA under the authority of FIFRA through the product label. All necessary hazard classification and appropriate precautionary use, storage, and disposal information is set forth on that label or labeling accompanying the pesticide or to which reference is made on the label. It is a violation of federal law to use an EPA-registered pesticide product in any manner inconsistent with its labeling.
