Statement of Safety and Efficacy:

These products are safe and efficacious and approved for direct use on food when used in accordance with label directions and good manufacturing practices. PacRite 2-Quat Plus and PacRite 4-Quat Plus contain quaternary ammonium compounds and are not approved for direct use on food. All other listed products do not contain quaternary ammonium compounds.

Statement of Compliance:

These products are registered with the U.S. Environmental Protection Agency and comply with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) as well as all applicable rules set forth in 40 CFR.

Allergens:

These products do not contain milk (casein), eggs, peanuts, seafood, sesame, soy, sulphites, tree nuts, mustard, glutens (wheat), or any other known food allergens.

Applications:

These products must be applied per label instructions by qualified, licensed commercial pesticide applicators where required by state.

Qualifications:

Pace International meets the requirements of SQF Code Edition 8.0 Level 3.

Pace International's chemical testing laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2005 General Requirements for the Competence of Testing and Calibration Laboratories.

Limits of Use and Special Directions:

It is a violation of Federal law to use these products in a manner inconsistent with their labeling. Refer to directions on product label for more information.

Sincerely,

Audrey Sehn
